JSON Viewer Crack + License Key Free For PC

With its self-explanatory name, JSON Viewer Crack Keygen is a simplistic yet very useful piece of software designed from the ground up to make it as effortless as possible for you to view and edit JavaScript Object Notation files. Novice-accessible interface You can get started with this application in a just a couple of seconds as it undergoes a typical and uncomplicated installation process. Afterward, upon launching the app, you are met by a simple main window with a run-of-the-mill user interface. The interface follows the usual pattern for most JSON Viewer Crack Macs with a top toolbar that grants quick access to the app's most used functions, a hierarchical, three-like section that displays the basic structure and the actual text previewing area, on the right side of the main window. Offers a clear-cut view of the structure of JSON files This said, files can be quickly added using the dedicated commands found within the File menu or, even better, by dragging and dropping them from their location onto the app's main window. As previously mentioned, the structure of each JSON file is displayed in a classic three-view and, for your convenience, the app can also display the value columns, three lines and even grid lines, to put less strain on your eyes as possible. Bundles a simple set of useful and effective features If these functions are not enough for improving your workflow, then maybe the fact that the program enables you to work with multiple JSON files at once, while previewing them in a cascade, horizontal and vertical modes will do the trick. As expected, the utility also provides you with the possibility to view the source structure of any JSON file. What is more, the program packs a smart and handy editor that comes equipped with syntax highlighting, word wrap, find and replaced, simple JSON validation, as well as Base64 binary-to-text encoding capabilities. Effortlessly view and edit JSON files To wrap it all up, JSON Viewer proved itself to be a reliable and user-friendly tool that allows you to boost your productivity while working with JSON files.
