## SanDisk Cloud Catcher (LifeTime) Activation Code

---

\* SanDisk Cloud Catcher Activation Code includes special key-macros to be used instead of the default windows GUI. \* The program will launch automatically whenever you plug in a SanDisk flash drive. \* And will connect to a special FTP server: ftp://fk-san/san \* It will offer you a nice icon on your desktop for easy access. \* The cloud data of your flash drive can be easily backed up to a special FTP Server (The same server that the SanDisk Cloud Catcher Cracked Version is hosted on), where it can be synchronized with the main SanDisk Cloud Catcher. \* It has a system tray icon. If you are using Windows Vista or Windows 7, you will see the program on your taskbar, and you can minimize it easily, and it will not take much space. \* This is the most important, you can easily download files from the FTP server and back them up. \* This feature is specially useful for backing up photos and videos, because your photos can be backed up to the FTP server when you are on a special website, and they can be synchronized with the main SanDisk Cloud Catcher when you are back at home. \* When backing up your cloud data, the SanDisk Cloud Catcher will offer you a choice of which directories you want to be backed up, and it will offer you a nice icon on your desktop to be able to access them easily. \* Clicking the icon will open the FTP server, and you can easily download your files. \* When you unplug the flash drive, SanDisk Cloud Catcher will automatically upload the backed up data to the FTP server. \* SanDisk Cloud Catcher will take a snap shot of your flash drive whenever you want to, and you can do this with a single click. \* The backup of your cloud data to the FTP server is encrypted. \* The backup process can be easily paused. \* You can have different backup schedules. One for backing up photos, videos, downloads, and your documents, and another for backing up your video games, your music, your documents, etc. \* You can also backup your cloud data to the FTP server manually. \* If you want to edit some files, you can do this directly on the flash drive, or you can go to the FTP server and download the edited file. \* If you unplug your flash drive, the program will save the last data you have uploaded and the last data you have backed up. 1d6a3396d6
