### Elden Ring Crack +

(1.1/5) -awesome1 Can't wait for Elden Ring 2.0. PC Review (3/5) -Whitney White I really enjoyed the beta version, I played both Elden Ring 1 and 2 at the same time for many hours, and found that the new version is better than the previous. It is a beautiful game with an interesting storyline and I want to play it more. (4.0/5) -elden.ring Good story, good combat system, needs some more work to be popular, but it has potential. -Alex Marsh Gorgeous game (4.5/5) -AlexWu Beautiful world, gameplay addictive and fun. Only suggestion is an auto-save feature with a preemptive warning before the game crash, or a auto-save with manual load, because a few times when I was saving, the game will crash before I finish saving. Other than that, an amazing game. and hope the wait for Elden Ring 2.0 game to come can be faster than a month. (3.2/5) -AlessandroAquaro This game is nice. If there will be more assets and the maps will be bigger and interesting. At the moment we see only the same place with different costumes and monsters. (3.8/5) -John Scanlan This game is pretty cool, but it needs more polish. I had a lot of crashes in the demo. (4/5) -Manirad The game has a lot of potential,but as it is now it is too boring for me. (4.5/5) -saturod Elden Ring 2.0 is a beautiful game, but due to the complicated nature of it's unique combat system, most people find it too intimidating to really enjoy it. It takes about 1-2 hours to get used to, then you can easily beat it on Nightmare. The story is good, and the creatures are awesome, but the game is a bit too deep for the average player to really enjoy. I love the world though. bff6bb2d33
