"I have never lost to an online game before," said Kanpacho, a 25-year-old college junior and a pilot. "The synergistic play between the character and the online interface is wonderful." "It's true that my strategy and battle experience have benefitted with the online features. You sit astride the old man's back in his small kingdom, a dark velvet cape matching your black robes. The old man ferries you from place to place, on a journey to gather a collection of the most evil of sinners. But first, you would like his advice. "Yours is a terrific cape. What do you call it?" "I call it a Death Cape," the old man shouted suddenly. "God, very well then. I do not understand why all the elves over there are holding you up." The old man holds his hand over your mouth and stands on a long platform as his heels touch the ground. He glides to one side as you run, jumping off the ground and into the old man's hand. Your cloak falls open, revealing a black robe. "I love this cape. It's very comfortable," he says, and runs down the stairs, jumping down the towers of a fortress. The bucket rattles slightly as a voice comes from the stables. "Every day, the five lowest peasants in town are pushed into the rapids of the river. They are to
