What's new in Elden Ring:

So the idea of 'Hollow' was born and I am excited to share it with you. I am unable to share any details on the game right now, but when I am able, I will be sure to share them.

Once again, I thank you all for reading. I hope you enjoy exploring the Lands Between.

Also...

It only takes a few hours to build a community made around a new game project, but after that, it requires a lot of time and effort to draw people's attention again, so I spent much of my free time last month searching for a way to accelerate growth, and I started searching for third-party development studios and game engine libraries.

I found one that was perfectly suited to the 'Hollow' project and decided to transfer the game over to it.

I found a development environment for Windows, PlayStation 4 and Xbox One that I really like, and as it currently supports Windows 32bit/64bit and Xbox One, we can consider it a perfect match for 'Hollow'.

But this studio, although it has a high quality game engine, is located in Japan, and the amount of time to create a game is several times longer than what it is in Korea, so I plan to first finish 'Hollow' and later work on the full release. But I am currently working on transferring the game to the engine, and a redesigned post processing node system is currently under development.

I would like to make 'Hollow' into a more mature game with a new post-processing feature, which was actually planned in the original game.

If you are interested in the new development environment, I would like to ask you to stay tuned for future updates.

Thank you.

Tarnished, and be guided by grace to brandish the power of the Elden Ring and become an Elden Lord in the Lands Between.:For most CFL fans, the Blue Bombers are one of those mythical teams you never really get to see – they're usually either winning, or losing by a lot, but never seem to get into a scrappy battle with an opponent that you love to watch. Either that, or they make the conference finals and you're shaking your head in disbelief. The Bombers have been in that situation plenty of times over the years: 2011: 6-12 2012: 4-14 2013: 5-13 2014:

3-13 2015: 1-15 2016: 7-13 Now that Bombers fans are finding out that they'll be watching another season of hurt, they're asking the question, is it any easier for the coaching staff when they pull into Winnipeg on a cold, rainy day and there aren't a lot of people out to welcome them? "Nah, it's tougher," Bombers general manager Kyle Walters said. "We're coming off the Bye week, you know? So, it's a lot more work than we've had the last few years. As we've gone through our bye week, we've had a lot of hours in here working on what we have to do, what we

have to change, we're always looking to improve." While the Bombers certainly have been on the up-and-down roller coaster this year, they were never heading down the track and into the tunnel for a good, long time. The Regina game was the game that snapped the Bombers�
